

PROFESSIONAL AIRLESS PAINT SPRAYER

GTB-915

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable

Suitable for small residential construction,
DIY spraying operation can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	1.8L/min
Max tip size :	0.019in
Motor type :	Brush Motor
Net weight :	14.5KG

GTB-918

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for small residential construction, DIY spraying operation can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	1.8L/min
Max tip size :	0.019in
Motor type :	Brush Motor
Net weight :	14.5KG

GTB-920

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for medium-sized residential professional construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.0L/min
Max tip size :	0.021in
Motor type :	Brushless Motor
Net weight :	15KG

GTB-925

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for medium-sized residential professional construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.5L/min
Max tip size :	0.021in
Motor type :	Brushless Motor
Net weight :	16.5KG

GTB-930

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for medium-sized residential professional construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2200W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	3.0L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	18KG

GTB-935

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for medium-sized residential professional construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	3.5L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	23KG

GTB-935A

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for medium-sized residential professional construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	3.5L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	33KG

GTB-950

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for large residential professional construction can spray latex paint, putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	3500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	5.0L/min
Max tip size :	0.039in
Motor type :	Brushless Motor
Net weight :	40KG

GTB-980

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- New material plunger rod, cylinder liner
- more wear-resistant
- Split type simple pump body design
- low maintenance cost
- Aluminum reinforcement design
- more durable
- Folding handle
- more convenient to carry
- Imported cowhide sealing ring
- durable
- Intelligent voice fault warning system
- easier to use
- Control box water cooling heat dissipation
- circuit board cooling effect is better
- Intelligent shortage protection function
- protect the piston rod

Suitable for large residential professional construction can spray latex paint, putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	4000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	8.0L/min
Max tip size :	0.043in
Motor type :	Brushless Motor
Net weight :	58KG

GTB-395

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable

Suitable for small residential construction,
DIY spraying operation can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.0L/min
Max tip size :	0.019in
Motor type :	Brush Motor
Net weight :	14.5KG

GTB-490

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small residential construction,
DIY spraying operation can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.0L/min
Max tip size :	0.019in
Motor type :	Brush Motor
Net weight :	14.5KG

GTB-495

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.2L/min
Max tip size :	0.021in
Motor type :	Brushless Motor
Net weight :	15KG

GTB-595

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2200W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.5L/min
Max tip size :	0.021in
Motor type :	Brushless Motor
Net weight :	16.5KG

GTB-695

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2200W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	2.8L/min
Max tip size :	0.025in
Motor type :	Brushless Motor
Net weight :	17.5KG

GTB-700

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	3.2L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	18KG

GTB-850

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2800W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	4L/min
Max tip size :	0.035in
Motor type :	Brushless Motor
Net weight :	19KG

GTB-995

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for small and medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	3000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	3.5L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	25KG

GTB-795

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for medium-sized residential construction can spray latex paint

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	3000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	4.0L/min
Max tip size :	0.031in
Motor type :	Brushless Motor
Net weight :	33KG

GTB-1095

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for medium-sized residential construction can spray latex paint, putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	3500W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	6.0L/min
Max tip size :	0.039in
Motor type :	Brushless Motor
Net weight :	40KG

GTB-1098

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for medium-sized residential construction can spray latex paint, putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	3800W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	7.5L/min
Max tip size :	0.041in
Motor type :	Brushless Motor
Net weight :	45KG

GTB-8900

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable
- Intelligent voltage regulation control
- more convenient to use

Suitable for large residential construction
can spray latex paint, putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	4000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	10L/min
Max tip size :	0.043in
Motor type :	Brushless Motor
Net weight :	60KG

GTB-970Electric

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable

Suitable for large residential construction
can spray latex paint,putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	4000W
Power Requirement :	220V/50Hz
Max pressure :	3300PSI
Max flow :	12L/min
Max tip size :	0.051in
Motor type :	Brushless Motor
Net weight :	93KG

GTB-970 Gasolne

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable

Suitable for large residential construction
can spray latex paint, putty

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	9P
Max pressure :	3300PSI
Max flow :	12L/min
Max tip size :	0.051in
Net weight :	93KG

GTB-833 Electric

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable

Suitable for large residential construction
can spray latex paint,putty

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	9200W
Power Requirement :	380V
Max pressure :	4000PSI
Max flow :	12L/min
Max tip size :	0.065in
Motor type :	Brushless Motor
Net weight :	240KG

GTB-833 Gasolne

FEATURES

- Heavy cutting needle roller bearing
- super bearing capacity
- Imported cowhide sealing ring
- durable

Suitable for large residential construction
can spray latex paint,putty

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	13P
Max pressure :	4000PSI
Max flow :	12L/min
Max tip size :	0.065in
Net weight :	240KG

GTB-29H

FEATURES

- Updated the framework
- Improved tracking and line quality
- The newly designed frame adds stability
- Electronic pressure control
- Improved line quality
- Strict and accurate fault-tolerant system

High flow rate.

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	6.5P
Max pressure :	3000PSI
Max flow :	2.8L/min
Max tip size :	0.031in
Net weight :	70KG

GTB-395H

FEATURES

- Updated the framework
- Improved tracking and line quality
- The newly designed frame adds stability
- Electronic pressure control
- Improved line quality
- Strict and accurate fault-tolerant system

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1000W
Rated voltage :	DC36V
Max pressure :	3300PSI
Max flow :	2.0L/min
Max tip size :	0.017in
Motor type :	Brush Motor
Net weight :	69KG

GTB-495H

FEATURES

- Updated the framework
- Improved tracking and line quality
- The newly designed frame adds stability
- Electronic pressure control
- Improved line quality
- Strict and accurate fault-tolerant system

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	1500W
Rated voltage :	DC48V
Max pressure :	3300PSI
Max flow :	2.2L/min
Max tip size :	0.021in
Motor type :	Brushless Motor
Net weight :	75KG

GTB-700H

FEATURES

- Updated the framework
- Improved tracking and line quality
- The newly designed frame adds stability
- Electronic pressure control
- Improved line quality
- Strict and accurate fault-tolerant system

High power motor

High flow rate

Visible pressure

Spray finish

TECHNICAL SPECIFICATIONS

Motor Power :	2200W
Rated voltage :	DC60V
Max pressure :	3300PSI
Max flow :	3.2L/min
Max tip size :	0.015in(2 gun)
Motor type :	Brushless Motor
Net weight :	83KG
